

# Advanced Sealing

**SEALING • RELIABILITY • SOLUTIONS**

**THE INDUSTRY LEADER  
MANUFACTURING • TECHNOLOGY**

**Gaskets**

CPFG™, ALKY-ONE®, Spiral Wounds, Non-Asbestos, PTFE, Graphite, Filled Teflon, Cork, Vegetable Fiber, Sponge, Mica, Ceramics and Fiberglass  
Elastomeric: Neoprene, SBR, Buna, Viton, EPDM, Silicone, Diaphragm  
PTFE Joint Sealant & Gasket Tape

**Heat Exchanger Gaskets**

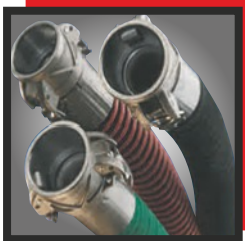

Vessels, Reactors, CGG™, CPFG™, KAG™, Double & Single Jacketed, Solids, Double Rails in all shapes and configurations. Header Plugs, Fin Fan Gaskets, Lamaflex Seals

**RTJ Gaskets**

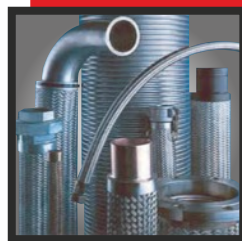

Oval , Octagonal, Carbon Steel, Soft Iron, F5, F6, 304, 316, 321, 347, Reactor, Vessels, Nozzles, Manways, KAG™ Pressure Energized Gaskets (PEG), KAG-ORJ

**Fasteners**

Studs, A193, Grades, B7, B7M, B16, B8, B8M, Coarse & Fine Thread, Machine Bolts, Cap Screws, Blue Xylan Coated, Zinc Plated, Cadmium Plated, Anchors, U-Bolts, Pins, Washers, Breechlok Hardware, Inserts, Step Studs

**Rubber Hose**

UL Certified, Goodyear Star Fabricator: Steam, Hydrocarbon, LPG, Nitrogen, Decoking, Petroleum & Chemical Transfer, Composite, Submarine, Dock, Air, Water, Teflon Lined & Braided, Fire Hose Assemblies & Hydraulics

**Metal Hose Fabrication**

Certified Welders: ASME B31.1, B31.3, ASME Boiler Code Section IX, Stainless Steel, Monel, Bronze, Inconel & Interlocked Assemblies. We specialize in all of your petrochemical, power, co-generation, and aerospace requirements.

**Packings**

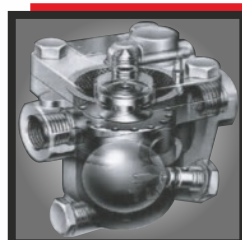

Valve and Pump Packing, Die Formed Packing Sets, General Service to AQMD Requirements, Hydraulic Vee Ring Sets, Tools: Picks, Pullers, Knives & Cutters

**Expansion Joints**

Fabric, Composite, Metal, Rubber, Pipe Spools, Vibration Dampers, Teflon & Corten. We specialize in field engineering and service for all of your required framework and splice repairs

**Valves**

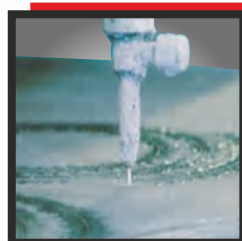

Klinger Piston Valve: Low-Cost of ownership through longevity & trouble free service with higher than Class VI sealing attained. Usable for: Steam, Water, Oil, Cooling Fluids & Gases. 100% tight shut off with easy in-line maintenance

**Steam Trap**

Free Float, Thermodynamic, Thermostatic, Disc, Gas Process, Separators, Air. Specialized on-site personnel to perform surveys for maximum efficiency and reduced energy spend.

**OnSite Trailer Programs**

Unique variety of commodities, creating added value by increasing time on tools during maintenance outages & refinery turnarounds. Substantiated savings of hundreds of thousands of dollars through independent case studies.

**State of the Art Equipment**

CNC Operated Waterjets, Computerized Saws, Nutting & Threading Machines, Welding Machines, CNC Turning Center (Lathe), Mills, Stamping Machines, Crimpers, Expanders, Swagers, Mass Spectrometers & Test Rigs, PMI Testing Certification
